

Subject Index - F

- Faculae, comparison of, with barometric gradient, 46:269-77
- Fahrenheit, conversion of, to centigrade, Ferguson on, 35:438
- _____, conversion of, to centigrade, formula for, 35:62-63
- 'Fair', meaning of, in meteorology, Buynitzky on, 43:613-14
- Fair, state, local, relation between, and meteorology, 23:463
- Famine, India, 28:246-48
- _____, Japan, northern, effect of Bering Sea ice on, Kincer on, 50:582-83
- Farm, operation of, relation between, and climate, Voorhees on, 43:612
- Farmer, relation between, and Weather Bureau, Merrill on, 38:119-20
- Farmers' Institutes, lectures at, 28:20,67
- Farming, dry, 37:53-54
- _____, dry, in East, 38:1310-11
- _____, relation between, and climate, Reed and Tolley on, 44:354-55
- Fata morgana, June 1922, on Nagyhortobágy, Réthly on , [il], 51:312-13
- Fault, atmospheric, West Coast, Bowie on, 57:332-34
- Fences, wire, construction of, to prevent effects of lightning, 26:466
- Fire, March 22, 1897, Huron, S. Dak., 25:98
- _____, cause of, by lightning, Iowa, 1919-22, Covert on, 51:404
- _____, cause of rain by, 24:461
- _____, cumulus clouds above, See: Clouds, cumulus, over fire
- _____, forest , See: Forest fires
- _____, oil, start of tornado by, Brunt on , 55:25
- Fireballs, See: Meteors
- Fish, rain of, June 27, 1901, Tillers Ferry, S. Car., 29:263
- _____, showers of , 33:322
- Flagpole, use of, in calibrating kite anemometers and observing kites, Sherry on, [il], 44:327-28
- Flags, weather, explanation of , 29:14-15
- Flames, red hydrogen, typical forms of, 33: July 1905, pl.3
- Flight, See also: Flying
- _____, airplane, 1917-19, notable, weather during, 47:233
- _____, airplane, May 16-27, 1919, trans-Atlantic, first, Gregg on, [il], 47:279-82
- _____, airplane, May 18,1919, non-stop to Ireland, Hawker and Grieve's, 47:283
- _____, airplane, 1919-20, of N C - 4, meteorological aspects of, Anderson on, 48:529-32
- _____, airplane, Feb. 25, 1920, above Hawaiian Islands, aerological observations during, 48:87
- _____, airplane, Aug. 31-Sept. 1, 1925, from San Francisco to Hawaii, meteorological aspects of,
53:384-87
- _____, airplane, Sept. 8, 1931, Moyle-Allen, over northwestern Pacific, 59:364
- _____, airplane, Oct. 3, 1931, non-stop, across Pacific, Pangborn and Herndon's, 59:398
- _____, airplane, May 1932, across Atlantic, 60:122
- _____, R.S.-1, San Antonio, Tex., to Scott Field, Ill., Kepner on, 59:386-88
- _____, trans-Atlantic, British dirigible R-34, Gregg on, [il], 47:541-43
- _____, trans-Atlantic, from meteorologists. Point of view, Gregg on , 47:65-75
- _____, trans-Atlantic, non-stop, first successful, Alcock and Brown's, 47:416

_____, Wheaton's, against head winds, Warren on, 58:118

Flood, See also: Freshets

_____, Jan. 1880, Basseterre, W.I., 27:196

_____, June 1885, Mexico, 13:157

_____, April 1886, Cumberland River, 12:146

_____, May 30-June 1, 1889, Johnstown, Pa., Russell on, 17:117-19

_____, May 31-June 3, 1899, in Middle Atlantic states, 17:148-50

_____, May and June 1894, Columbia river, 22:510

_____, Jan. 1898, Ohio and central Mississippi valleys, 26-4

_____, March 1898, Ohio and central Mississippi rivers 26:92

_____, April 1898, Mississippi, 26:140-42

_____, June 27-July 15, 1899, Brazos river valley, Tex., with notes on previous overflows, 27:295-98

_____, April 7-17, 1900, Colorado valley, Tex., 28:146-150

_____, April 27-May 17, 1900. Brazos river valley, 28:198-200

_____, Nov.-Dec. 1902, Red river, 30:604

_____, May 20, 1904, Crow Creek, Cheyenne, Wyo., 32:226-27

_____, June 1904, Jamaica, Hall on, 32:273

_____, Sept. 1904, Southwest, 32:465-68

_____, Oct. 1-4, 1904, south Carolina river, in Oklahoma and Indian Territory, 32:522-23

_____, 1908, Mississippi river, 36:198-208

_____, July, 1908, Kansas City, Mo., 36:296

_____, Aug, 1908, in rivers of Georgia, North and South Carolina, 36:233-35

_____, Nov. 1908, Neosho and Arkansas rivers, 36:396-97

_____, June-July 1909, Missouri river, 37:399-400

_____, July 10-20, 1909, lower Missouri valley, Smith on, 38:572-75

_____, Sept. 1909, San Juan river, 37:648-49

_____, Autumn 1909, Utah, 37:657-58

_____, Dec. 30, 1909 to Jan. 2, 1910, southern California, Wollaber on, 38:132

_____, Dec. 31, 1909 and Jan. 1-4, 1910, Arizona, 38:109-10

_____, Jan. 1, 1910, Great Basin, 38:117-19

_____, Feb. 1910, southern Idaho, 38:295

_____, Feb, and March 1910, Willamette Valley, Andree on, 38:474-75

_____, Feb, 26 to March 1, 1910, Humboldt river, 38:444-45

_____, Aug, 28-29, 1910, Lincoln, Neb., Garrett on, 38:1209

_____, Sept. 1910, lower Rio Grande, 38:1399-1400

_____, Jan. 24 to Feb. 4, 1911, southeastern Idaho, 39:130-31

_____, Feb. 1911, in Grand and Saginaw river valleys, 39:197

_____, July 1911, in Rio Grande and Rio Pecos, Brandenburg on, 39:1066

_____, Oct. 1911, Wisconsin river, Spencer on, 39:1517-19

_____, Oct. 4-5, 1911, Rio Grande, Brandenburg on, 39:1562

_____, Oct. 5-6, 1911 southwestern Colorado and northwestern New Mexico, 39:1570-72

_____, Spring 1912, Michigan, Schneider on, 40:530-31

_____, Spring 1912, Mississippi Valley, 40:554

_____, March 1912, South Atlantic and East Gulf states, Herrmann on, 40:336-38

_____, April 1912, Gulf states, 40:501-02

_____, May 1912, Michigan, Coleman on, 40:699
_____, June 1912, Colorado river, Brandenburg on, 40:917-18
_____, July 1912, Wisconsin river, Spencer on, 40:1031-32
_____, July 14, 1912, Cherry Creek Basin, Colo., McDonough on, 40:1043-44
_____, Aug. 1912, in Wisconsin river, Spencer on, 40:1191
_____, Sept. 1912, in Wisconsin river, Spencer on, 30:1344
_____, Jan. 1913, in Ohio Valley, 41:27-29
_____, Jan.-Feb. 1913, in Pascagoula and Pearl rivers, 41:185-86
_____, Jan.-March 1913, in Tombigbee and Black Warrior rivers, Alabama, Ashenberger on, 41:516
_____, March 1913, recurrence of, possibility of, Smith on, 42:176-78
_____, March-April 1913, in Ohio Valley, 41:529-30
_____, April 1913, Cairo, Ill., district, Lindley on, 41:553-54
_____, July 24, 1913, Boise, Ida., Wells on, 41:1104-05
_____, Sept. 26- Oct. 4, 1913, in southwestern Louisiana, Cline on, 41:1546
_____, May 1914, in Denver district, Brandenburg on, 42:293-94
_____, April-May 1915, Texas, Bunnemeyer on, 43:186-89
_____, May-June 1915, Missouri Valley, Henry on, 43:286-87
_____, June 1915, in Kansas river and tributaries, Connor on, 43:287-88
_____, Sept. 1915, in Neosho river, Holcomb on, 43:474-45
_____, Spring 1916, in lower Mississippi, Vicksburg district, Barron on, 44:295-97
_____, April 1916, in Mississippi river, St. Paul, Minn., to Hannibal, Mo., 44:214
_____, July 1916, in East Gulf and south Atlantic states, Henry on, 44:466-76
_____, Aug. 9, 1916, in West Virginia, 44:465
_____, Aug. 15, 1916, Hannibal, Mo., 44:465
_____, Sept. 26 to Oct. 7, 1917, in Rio Grande Valley, 45:462
_____, Sept. 26, 1918, Juneau, Alaska, Summers on, 46:471
_____, Oct. 1919, eastern Spain, 47:750
_____, Nov. 1919, in Memphis district, Emery on, 47:824
_____, Dec. 1919, in east Gulf states, 47:894-46
_____, Dec. 1919, Meridian, Miss., river district, Jaqua on, 47:896-98
_____, March-April 1920, Iowa, 48:235-36
_____, May 1920, in Black Hills, S. Dak., Johnson on, 48:236
_____, June 1920, in Mississippi river and tributaries, below Vicksburg, Miss., Cline on, 48:365
_____, 1921, in Amazon river, Hagmann on, 51:25
_____, June 1921, in Denver district, Sherier on, 49:366-69
_____, Aug. 1921, in Luzon, Philippines, Coronas on, 49:509
_____, Sept. 1921, in Texas, Bunnemeyer on, 49:491-94
_____, Sept. 9-10, 1921, Taylor, Tex., McAuliffe on, 49:496-97
_____, Sept. 10, 1921, San Antonio, Tex., Jarboe on, 49:494-96
_____, Spring 1922, Frankenfield on, [il], Suppl. 22
_____, Spring 1922, Frankenfield on, Henry's abstract of, 51:20-24
_____, Spring 1922, Mississippi drainage basin, 50:326-28
_____, April 24-25, 1922, Fort Worth, Tex., Landis on, 50:188-89
_____, June 1922, in lower Rio Grande, Jarboe on, 50:328-29
_____, July 1922, in Grand river, 50:381-82

_____, April 28-30, 1923, in Maine, Jones on, 51:224
_____, Aug. 13, 1923, Farmington and Willard, Utah, 51:420-422
_____, Oct. 1923, in Oklahoma, Slaughter on, 51:47-48
_____, Oct. 20-23, 1923, in Canal Zone, Henry on, 51:530
_____, Oct. 22-25, 1923, in Canal Zone, Kirkpatrick on, 51:641-43
_____, March 29, 1924, Cumberland, Md., Weiss on, 52:180
_____, April 1924, in Belle Fourche river, western South Dakota, Johnson on, 52:236
_____, June 13, 1924, in Carter county, Tenn., King on, [il], 52:311-13
_____, June 1925, Mexico, 53:313-14
_____, May-June 1926, in various regions, 54:262
_____, 1927, in Mississippi Basin, Frankenfield and others on, [il], Suppl. 29
_____, 1927, in Mississippi Valley, Frankenfield's paper on, Henry's review of, [il], 55:437-52
_____, Nov. 3, 1927, in New England and eastern New York, Frankenfield on, 55:496-99
_____, March 1928, in Sacramento Valley, Taylor on, 56:100-2
_____, July 1928, in Mississippi and Atchafalaya rivers, 56:334
_____, 1929, in lower Mississippi valley, Spencer on, 57:317-19
_____, Feb. 1929, in Miami river, 57:116
_____, March 1929, in southeast Alabama, Henry on, [il], 57:319-23
_____, March 15, 1929, Elba, Ala., [il], 57:111
_____, Aug. 1930, in Utah, Alter on, [il], 58:319-21
_____, 1933, losses from, statement of, 62:24-27
_____, March-June 1933, in United States, Zoch on, 61:159-65
_____, Aug. 2-3, 1933, in Cherry Creek, Colo., Sherier on, 61:280
_____, Dec. 1933, in Oregon and Washington, 62:23-24
_____, Dec. 30, 1933 to Jan. 1, 1934, in Los Angeles area, Daingerfield on, 62:91-94
_____, 1934, in United States, losses by, 62:465-67
_____, 1935, in United States, losses by, 63:361-65
_____, Jan. 1935, near Memphis, Tenn., 63:31
_____, Jan. 1935, in Washington, Fisher on, 63:58
_____, April 1935, in Sacramento Valley, Fletcher on, 63:135-37
_____, May-June 1935, in Kansas river valley, Grand, Osage and lower Missouri rivers, 63:198-99
_____, May 31:1935, near D'Hanis, Tex., 63:256-57
_____, July 1935, in New York and northeastern Pennsylvania, 63:231
_____, Dec. 8-9, 1935, Houston, Tex., 63:361
_____, ancient, in Pennsylvania and Ohio, Pennywitt on, 50:15-16
_____, crests of, Colorado river, effect of mountain snowfall on, Sherier on, 51:639-41
_____, crests of, on Ohio and Mississippi, movement of, Henry on, 48:651-55
_____, crests of, Vicksburg, Miss., forecasting, based on stages at Cairo,
_____, discharge of streams during, 22:255
_____, flashy, Utah, causes of, 59:122
_____, Frankenfield on, 27:405-09
_____, Genessee river, McClintock on, 23:341
_____, Iowa, phenomena of, Nagler on, 61:5-7
_____, James River Valley, 27:250:51
_____, Los Angeles, studies of, carpenter on, [il], 42:385-89

_____, maximum, distribution of, discussion about, 48:215-6
 _____, maximum, distribution of, Henry on, 47:861-67
 _____, Mississippi river, protection against, system of, Jadwin's report on, 55:532-33
 _____, Missouri river, upper, reed on, 39:877-79
 _____, mud, Utah, Alter on, [il], 58:319-21
 _____, New England, Henry on, 42:682-86
 _____, New Zealand, warnings of, 47:743
 _____, Nile, relation between, and India monsoons, 28:252,324-25
 _____, Nile, studies of, Groissmayr on, 55:413
 _____, prediction of, Stewart and Schuleen on, 57:186-92
 _____, protection from, in Minnesota Valley, 48:656-57
 _____, protection from, Woodward and Nagler's paper on, 56:372-73
 _____, relation between, and forests, Smith on, 39:516
 _____, Rio Grande, lower, Henry on, 47:742-43
 _____, river, advance of, 23:341
 _____, river, effect of melting snow on, 31:173-75
 _____, Swain's article on, Roberts' comments on, 38:496-98
 _____, Tennessee river, 24:420-21
 _____, United States, months of, Henry on, 47:741
 _____, Willamette river, Wells on, 53:355
 Flora, relation between, and climate, 28:448
 Fluids, elastic, resistance of, Cottier's, 35:352-56
 _____, motion of, researches on, Bateman on, 43:163-70
 _____, resistance of small plates in, Rayleigh on, 43:512
 _____, revolving, in atmosphere, Shaw on, 45:454
 _____, revolving, dynamics of, Raleigh on, 45:413-14
 Flying, above-cloud, advantages of, Jones on, 48:528-29
 _____, Atlantic coast, bumpy, Parkes on, 50:250-51
 _____, cloud, Lohr on, 59:430-31
 _____, effect of bumpy air on, Andrus on, 55:494-95
 _____, effect of weather on, Miller on, 58:25-26
 _____, relation between, and meteorology, 31:594-95
 _____, relation between, and meteorology, Reed on, 48:216-17
 _____, weather for, Arizona, southern, Walton on, 59:270-72
 _____, weather for, Corpus Christi area, McAuliffe on, 59:188-89
 _____, weather for, southern plains states, Reihle on, 48:627-32
 _____, wind factor in , Gregg and Van Zandt on, 51:111-25
 _____, wind factor in, Humphreys on, 52:223
 _____, wind factor in, between New York and Chicago Gregg and Van Zandt on, 52:153-57
 Flying fields, selection of, influence of climatology on, Meisinger on, 48:525-28
 Foehn, May 6, 1913, near Boston, Mass., 47:567
 _____, California, southern, 35:508
 _____, Greenland, meteorology of, Quervain on, 45:601
 _____, Greenland, west coast of, Jan. 1929, Schneider on, 58::135-38
 _____, hilltop, 47:567
 _____, influence of, on temperature in Alps, Peppler on, 54:506

_____, New south Wales, 35:270
 _____, San Francisco Bay , Varney on, 45:539-40
 Fog, 1885-1915, annual hours of, 44:21-22
 _____, Nov. 3, 1922, in Tri-Cities, Unger on, 51:81-82
 _____, Jan. 10-11, 1925, London, 53:165
 _____, Nov. 1929, in Gulf of Tehuantepec, Hurd on, 57:485
 _____, Jan. 1935, Boise, Idaho, Carter on, 63:59
 _____, annual hours of, 1885-1915, 44:21-22
 _____, beach, and fracto-cumulus, 43:402
 _____, Buzzards Bay, summer, 31:467-72
 _____, California, Great Valley of, winter, Counts on, 62:407-10
 _____, California , source of water supply, Reed on, 44:288
 _____, California coast, Palmer on, 45:496-99
 _____, California coast, southern, observations of, from airplanes, Anderson on, [il], 59:264-70
 _____, causes, distribution, and forecasting of, Willett on, 56:435-68
 _____, coast, forecasting, by radiobeacon, Hurd on, 57:96-97
 _____, diffusion of light by, Mallock on, 48:220
 _____, dispellers of, Tugrin, 27:17
 _____, dispelling of, attempts for, Talman on, 55:500
 _____, formation of, Cuthbertson on, 30:125-26
 _____, formation of, theory of, Proctor on, 32:406-11
 _____, formation and persistence of, study of, apparatus for, 48:161
 _____, Great Valley of California, winter, Counts on, 62:407-10
 _____, Greensboro, N. Car., airport, analysis of, statistical, Scholl on, 62:159-62
 _____, growth of, in unsaturated air, 35:22-27
 _____, Lincoln, Neb., dense, Carter on, 56:275-77
 _____, Luminous, 36:371
 _____, Manchester, Eng., Jenkins on, 43:510
 _____, measurement of, 32:169-70
 _____, Mt. Tamalpais, relation between , and wind direction, Wright on, 44:342-44
 _____, Mt. Tamalpais, studies of, [il], 28:283-86,492-93;29:24-25,61-63,104-06
 _____, New York Harbor, 23:463; 29:175
 _____, Newfoundland, Brodrick on , 35:76-78
 _____, Newfoundland, Garriott on, 15:91,122,150
 _____, ocean, prediction of, Garriott on, 15:176-77,336-37
 _____, Ohio, central, relation between , and subsequent weather changes, Martin on, 47:471-72
 _____, Ohio Valley, Devereaux on, 58:107
 _____, Oklahoma city area, formation and dissipation of, 1920-1931, Epperly on, 61:267-69
 _____, Pacific northwest, November, preceding winter of 1933-34, Carpenter on, 62:404-07
 _____, prevention of, 42:104-05
 _____, production of, by sun, McAdie on, 4 1:778-79
 _____, record of, proposal for, 25:249
 _____, Sahara, eastern, frequency of, Tilho on, 49:349-50
 _____, San Francisco, phenomenon of, Carney on, 48:337-38
 _____, San Gabriel Valley , McAdie on , [il], 38:1895-96
 _____, sea, extinguishing forest fire by, 52:499

_____, signals for, machinery for, acoustic efficiency of , King on, 45:442-43
 _____, signals for, Point Reyes light, Cal., reflection of, Jones on, 39:1256
 _____, smoke, London, Owens on, 49:405
 _____, summer, Buzzards Bay, 31:467-72
 _____, tule, 27:547-48
 _____, United states, forecasting, Frankenfield on, 43:607-08
 _____, United States lighthouses, relative frequency of, 45:499
 _____, utilization of, 26:466; 27:113; 32:169-70
 _____, utilization of, Carpenter on, 27:195-96
 _____, utilization of, Hawks on, 27:101-02
 Force, magnetic horizontal, comparison of, with temperature, 22:415-16, 460, 504
 Forecasting, cutworms, pale western, in Montana and nearby states, Cook on, 56:103-06
 _____, glaze, Meisinger on, 48:73-80
 _____, precipitation, see: Precipitation, forecasting
 _____, rain, by trees, 30:315; 31:592
 _____, temperature, See: Thunderstorms, forecasting
 _____, tornado, See: Tornadoes , forecasting of,
 _____, weather, See also: Forecasts
 _____, weather, accuracy of, Mascart on, 50:592
 _____, weather, aid of, in forest fire prevention and control, Calvert on, 53:187-90
 _____, weather, by analysis of atmospheric conditions, Clayton on, 35:161-67
 _____, weather, by animals, 48:98-99
 _____, weather, application of cirrus to, Guilbert on, 48:285
 _____, weather, application of theory of probabilities to, Ban Orstrand on, 37:175-76
 _____, weather, application of upper-air observations to , 40:150, 308, 473, 645-46, 803, 964
 _____, weather, for aviators, 46:448
 _____, weather, barogram analysis in , Bonacina on, 52:451
 _____, weather, Bartlett on, 34:523-26
 _____, weather, Bjercknes on, 47:90-95
 _____, weather, Boise, Idaho, from previous seasons, Carter on, 63:59,101
 _____, weather, Brazil, from barometric characteristics, Serra on, 63:222-23
 _____, weather, Clayton on, 48:83-84
 _____, weather, by clouds, Fuller on, 47:473-74
 _____, weather, by clouds, Ley on, Jan. 1879:14-15
 _____, weather, by clouds, Palmer on, 46:407-13
 _____, weather, competition in, proposal for , 32:523; 33:11
 _____, weather, crops by , 49:299
 _____, weather, empirical factors in, Dines on, 57:474
 _____, weather, Escanaba, Mich., Stewart on, 35:356-57
 _____, weather, experiments in, 27:96-97
 _____, weather, Georgil on, 52:498-99
 _____, weather, history of, 27:64
 _____, weather, Hong Kong, 27:98-99
 _____, weather, improvements in, possible, Bjercknes on, 47:99-100
 _____, weather, India, 28:246-48
 _____, weather, India, seasonal, 26:266

_____, weather, by laymen, 43:507
_____, weather, local, project for , Weightman on, 48:154-55
_____, weather, by local observers, 32:130
_____, weather, long-range, 27:156-57
_____, weather, long-range, Brooks on, 56:146-47
_____, weather, long-range, Canada, Gun on, 27:149-50
_____, weather, long-range, correlation's for , Groissmayr on, 56:370-71
_____, weather, long-range, Elmer's letter on, 32:517
_____, weather, long-range, England, 49:666
_____, weather, long-range, Java, Braak on, 48:414-15
_____, weather, long-range, Mascart on, 49:575
_____, weather, long-range, Oregon, Pague on, 23:423;24:166,368;25:161;26:253
_____, weather, long-range, Pacific coast states, Ashley on, 29:16-19
_____, weather, long-range, performance in, Brooks on, 55:390-95
_____, weather, long-range, physical basis of, Abbe on, 29:551-61
_____, weather, long-range, Porto Rico, Ray on, 62:235-40
_____, weather, long-range, possibility on, 22:330-31
_____, weather, long-range, possibility of, Pettersson on, 57:256-57
_____, weather, long-range, possibility of, Sutton on, 48:221
_____, weather, long-range, relation between, and ocean temperatures, Brooks on, 46:510-12
_____, weather, long-range, south Africa, 35:72-73
_____, weather, long-range, Wren on, 32:469-70
_____, weather, method of, heuristic, 32:375
_____, weather, method of, Pernter on, 31:576-82
_____, weather, method of, statistical, Kaltenbrunner's, 47:734-35
_____, weather, methodical, Besson on, 32:311-14
_____, weather, Mexico, 28:541
_____, weather, Missouri, Frankenfield on, 23:292-93
_____, weather, monthly, by correlation, Reed on, 53:249-51
_____, weather, National Electric Light Association discussion on, Beals on, 49:210-13
_____, weather, by numerical process, Richardson's method of, Woolard on, 50:72-74
_____, weather, Observatorio del Salto, Santiago, While, 54:428-29
_____, weather, Pacific coast, McAdie on, 36:98-101
_____, weather, period of, extension of, Garriott on, 34:22-23
_____, weather, from pilot-balloon observations, Lacoste on, 50:200
_____, weather, principles of, Guilbert's, 35:211-12
_____, weather, problems in Dunoyer and Reboul on, 49:352
_____, weather, progressive phase in , Odenback on, 31:573-76
_____, weather, relation between, and citrus fruit marketing, Young on, 57:425
_____, weather, relation between, and forest fire control, Flint on, 51:567-69
_____, weather, relation between, and prediction of forest fire conditions, Weidman on, 51:563-64
_____, weather, relation between, and scientific ballooning, 36:283-84
_____, weather, relation between , and sun spots, Russell's article on, 56:189
_____, weather, relation between, and visibility, Gockel on, 49:352
_____, weather, rules for, Guilbert's, 25:210-11

- _____, weather, by scintillation of stars, Moyer on, 47:740
- _____, weather, seasonal, relation between, and pressure, Hessling on, 55:184-86
- _____, weather, seasonal, relation between, and pressure variations in Northern Hemisphere, Henry on, 53:528-34
- _____, weather, seasonal, Walker on, 59:202
- _____, weather, from ships at sea, Henry on, 51:188-90
- _____, weather, on short-period solar variations, Marvin on, 48:149-50
- _____, weather, by signs, 28:249; 29:508
- _____, weather, Smithsonian Institution, 26:263-64
- _____, weather, from synoptic charts, Henry on, 58:159
- _____, weather, United States, 44:393
- _____, weather, United States, inception of, Abbe on, 44:206-07
- _____, weather, use of cirrus in, 48:156
- _____, weather, use of free-air soundings in, Byers on, 62:376-78
- _____, weather, use of tephigram in, Alvord and Smith on, 57:361-69
- _____, wind, for aerial navigation, 50:26
- Forecasts, See also: Forecasting, weather
- _____, Australia, western, verifications of, Cooke on, 34:23-24,274-75
- _____, daily, dissemination of, by telephone, 32:311

- _____, protecting, from fire, value of weather forecasts in, Beals on, 42:111-19
- _____, relation between, and flood, Smith on, 39:516
- _____, relation between, and rainfall, 30:205-43; 45:453

_____, relation between, and rainfall, Hubbard on, [il], 34:24-26

_____, relation between, and stream-flow, experimental determination of, 38:770

_____, Swain's article on, Roberts' comments on, 38:496-98

_____, types of, distribution of, factors controlling, Pearson on, 49:94-95

_____, yellow-pine, western, Arizona, meteorological study of, Pearson on, [il], 41:1615-29

_____, yellow-pine, western, influence of, on accumulation and melting of snow, [il], 43:115-26

Forest fires, Nov. 1819, 32:23-24

_____, 1910, causes of, Jesunofsky on, 38:1576

_____, May 1911, in Arizona, 39:750

_____, Oct. 13-17, 1918, Minnesota, smoke from, Lyman on, 46:506-009

_____, Sept. 16-17, 1923, Berkeley, relation between, and weather, Alexander on, 51:464-65

_____, 1924, California, end of, by rains, 52:499

_____, July 13-Aug. 9, 1926, Quartz Creek, meteorological factors in, Gisborne on, 55:56-60

_____, Aug. 3, 1931, Freeman Lake, Idaho, meteorological effect on, Jemison on, 60:1-2

_____, Aug. 1933, Tillamook, Ore., weather of, Dague on, 62:227-31

_____, California, relation between, and weather fluctuations, Gray on, 62:231-35

_____, Catalina Mountains, Ariz., fighting, 38:1250

_____, cause of, by lightning, Palmer on, 48:452-53

_____, control of, relation between, and weather forecasting, Flint on, 51:567-69

_____, control of, weather forecasting as aid in, Calvert on, 53:187-90

_____, effect of lightning on, California, Palmer on, [il], 45:99-102

_____, effect of lightning on, California, Show on, 51:566-67

_____, effect of lightning on, California, Show and Kotok on, 51:175-80

_____, effect of lightning on, Humphreys on, 59:481

_____, effect of lightning on, Oregon and Washington forests, Morris on, 62:370-75

_____, effect of lightning on, record of, five-year, Gisborne on, 59:139-50

_____, effect of lightning on, Rocky Mountain region, Gisborne on, 54:281-86

_____, effect of lightning on, Washington, Alexander on, 55:122-29

_____, effect of lightning on, Washington forests, Morris on, 62:370-75

_____, effect of temperature and relative humidity on, Lloyd on, 60:56-59

_____, extinguishing of, by sea fog, 52:499

_____, formation of cloud during, carpenter on, 40:1258

_____, formation of conventional clouds by, Carpenter on, [il], 47:143-44

_____, Idaho, season of, Larsen on, 53:60-63

_____, Lake states, weather service for, Lloyd on, 59:31-33

_____, prediction of, relation between, and weather forecasts, Weidman on, 51:563-64

_____, prediction of, use of weather forecasts in, Gisborne on, 53:58-60

_____, prevention of, weather Bureau help in, Beals on, 44:138-39

_____, prevention of, weather forecasting as aid in, Calvert on, 53:187-90

_____, relation between, and climate, Montana and northern Idaho, 1909-19, Larsen on, [il], 50:55-68

_____, relation between, and evaporation, Munns on, 49:149-52

_____, relation between, and lightning, California, Show and Kotok on, 51:175-80

_____, relation between, and lightning, Washington Alexander on, 55:122-29

_____, relation between, and meteorology, Hofmann on, 51:569

_____, relation between, and meteorology, Show on, 59:432-33

_____, relation between, and solar radiation and relative humidity, Gast and Stickel on, 57:466-68

_____, relation between, and storm movement, McCarthy on, 52:257-59

_____, relation between, and thunderstorms, California, Beals on, 51:180-82

_____, relation between, and weather, Suzuki on, 56:323

_____, relation between, and weather, southern Appalachians, McCarthy on, 55:119-22

_____, Russia, smoke-travel from, 48:600

_____, smoke from, 22:32-30

_____, weather favorable to, 1929, comparisons of, Keyser on, 58:365-68

_____, weather favorable to, 1929, disastrous, Dague on, 58:368-70

_____, weather favorable to, Adirondacks, western, measurement and interpretation of, Stickel on, 60:25

_____, weather favorable to, Alexander on, 51:561-63; 58:370-72

_____, weather favorable to, Appalachians, southern, McCarthy on, 51:182-85

_____, weather favorable to, forecasting, Beals on, 44:135-38

_____, weather favorable to, forecasting, unit for, mobile, Gray on, 57:377-78

_____, weather favorable to, indication of, by water-level movements, Thompson on, 55:326

_____, weather favorable to, Lake states, Lloyd on, 59:31-33

_____, weather favorable to, Massachusetts, central, Stickel on, 56:134-36

_____, weather favorable to, Quebec, Nichols' paper on, Burrill on, 57:297-98

_____, weather favorable to, relation between, and evaporation, Bates on, 57:297-98

_____, weather favorable to, Washington, western, Joy on, 51:564-66

_____, weather favorable to, Wisconsin, 57:386-87

Forest Service, cooperation between, and Weather Bureau, 37:949-50

Forestry, effect of precipitation cycles on, 55:461

_____, meteorological observations in, Zon on, 42:217-23

_____, place of, among natural sciences, Graves on, 42:671-72

Fort Hall irrigation project, Idaho, Granville on, 38:1434-35

Franklin Kite Club, 24:334; 25:162-65

_____, Rhees on, 24:416

_____, Swain and, 25:165

Frazil, dissipation of, 40:1756

_____, formation of, Barnes on, 35:225-27

Freeze, See: Frost

"Freezing-point plane", dipping of, before thunderstorms, 14:360-61

Fremont Forest Experiment Station, work of, in climatology and forestry, [il], 38:97-101

French Association for Advancement of Science, meteorology of, 31:235

Frequency, curves of, See: Curves, frequency

Freshet, See also: Flood
