

Author Index - P

- PACINI, D.-- Blue of sky and Avogadro's constant, 44:246
____ Spectrophotometry of sky light, 49:26
- PACK, Dean A.-- Significant changes in rainfall at some localities, 61:350--52
- PAGE, James-- Antarctic research, 31:187--88
____ Barograph on shipboard, 27:590--91
____ Cyclonic storm of Oct. 6--12, 1905, in North Atlantic Ocean, 34:1--7
____ Date line in Pacific ocean, 30:363
____ Ocean currents, 30:397--401
____ Polar aurora of Oct. 30-Nov.1, 1903, 31:592--93
- PAGE, John L.-- Climate of Mexico, Suppl. 33
- PAGE, W.P.-- Squall of Aug. 24, 1930, in Florida straits, 58:342
- PAGLIUCA, Salvatore-- January 1934 cold wave on Mt. Washington, N.H., 62:57--58
____ Mount Washington Observatory, N.H., progress report, [il], 62:16--18
____ Winds of superhurricane force, and heated anemometer for measurement..., [il], 62:186--89
____ and R.G. STONE-- Halo of unusual radius, 61:327
- PAGUE, B.S.-- Change from winter to summer, 23:130
____ Chinook in Oregon, 24:460
____ Lightning from cloudless sky, 28:429--30
____ Long-range forecasts, 24:166
____ Long range seasonal predictions for Oregon, 24:368
____ Peculiarities of frost formation, 15:177
____ Precipitation over Pacific Northwest and possibility of high water in Columbia..., 27:252--53
____ Seasonal forecasts for Oregon, 25:161; 26:253
____ Weather types of North Pacific slope, 23:417--18
- PAIGE, Sidney-- Memorandum on Missouri earthquake of April 9, 1917, 45:318
- PAINE, George P.-- Report on modes of air motion and equations of general circulation..., 46:311--23
- PALMER, Andrew H.-- Agricultural significance of sunshine as illustrated in California, [il], 48:151--54
____ Applied climatology in California, 49:219--23
____ Clouds and their significance in local weather forecasting, 46:407--13
____ Death Valley- hottest known region, [il], 50:10--13
____ Drought in California, 48:156--67
____ Economic results of deficient precipitation in California, 48:586--89
____ Eruption of Lassen Peak, 44:571--73
____ Fog along California coast, 45:496--99
____ Halos and relation to weather, 42:446--51
____ Is the heat generated by great cities changing their climates?, 39:1284--99
____ Lightning and forest fires, 48:452--53
____ Lightning and forest fires in California, [il], 45:99--102
____ Note on relation of climate to agriculture in California, 43:398--400
____ Region of greatest snowfall in United States, [il], 43:217--21

_____ Snow and railway transportation, [il], 47:698--99
_____ Temperature conditions of Boston, Mass., 38:973--76
_____ Water supply in California, 47:311
_____ 's letter on aurora of May 15-16, 1909, 37:156--57
_____ and A.L. ROTCH's "Charts of Atmosphere", McAdie's review of, 39:1446--47
PALMER, W.S.-- Crow Creek flood of May 20, 1904, at Cheyenne, Wyo., 32:226--27
_____ Shoshone reservoir, 38:394--95
_____ Some climatic features of Wyoming and their relation to dry farming, 37:54-56
_____ Water supply and snowfall, Wyoming, 28:498--99
PANGBORN, Clyde, and H.HERNDON's flight across Pacific, 59:398
PARASKEVOPOULOS, J.S.-- Etesiens, 50:417--22
_____ Secular variations of climate, 49:230-31
PARKER, Perry and R.A. WELLS-- Value of smudge-pots in preventing frost in cranberry bogs, 53:351--52
PARKES, A.W.-- Bumpy flying conditions along Atlantic coast, 50:250--51
PARRY, Benjamin-- Storm conditions encountered by "S.S. Coamo", Sept. 3, 1930, 58:363
PARTRIDGE, Prof. Edward A.-- Method of filling barometer, [il], 24:413
PATTERSON, Dr. J.-- Comparison of Callendar sunshine recorder and Angstrom pyrhelimeter, 45:400
_____ Pilot balloon work in Canada, 48:697
_____, appointment of, director of Canadian Meteorological Service, 57:254
PAUL, J.H.-- Meteorology of seventh cruise of "Carnegie", 59:122
PAULLIN, C.O.-- Porto Rican hurricane of 1899, 28:443--45
PAYNE, F.F.-- Ground markings by lightning, 56:216
PEARSON, G.A.-- Factors controlling distribution of forest types, 49:94--95
_____ Meteorological study of parks and timbered areas in western yellow-pine forests..., [il], 41:1615-29
_____ Temperature summations with reference to plant life, 52:218--20
PEARSON, J.C., and C.G. HUTCHINS-- Air radiation, 32:314--17
PEARSON, P.A.-- Hot winds Kansas, 25:260--61
PECK, E.L.-- Nitrogen, chlorine, and sulphates in rain and snow, 46:211
PECK, Prof. Henry A.-- Central Pennsylvania meteor of Oct.1, 1907, 35:508--10
_____ Christmas meteor of 1873 at Washington, D.C., 35:447--48
_____ Meteor of March 14, 1908, over central New York, 35:121--23
_____ Meteor of Oct. 5, 1907, over New Jersey and Pennsylvania, 36:142--44
_____ Persistent meteor train observed at Albany, N.Y., 35:448--49
PEET, Charles E.-- Cooling by expansion and warming by compression, 35:123
PELTIER, George L.-- Influence of temperature and humidity on growth of pseudomonas citri..., 48:718
PENNYWITT, Henry-- Great floods in Ohio 160 years ago, 50:15--16
_____ Relative length of warm and cold seasons, 29:55-56
PEPOON, O.C.-- Dust whirls and fairy dances, 27:111
PEPPLER, Albert-- Daily march of wind velocity at 20 m. above Ostend and 90 m. above Brugge, 47:708
_____ Kaltenbrunner's statistical method of forecasting, 47:734--35
_____ Wind measurements in lowest layers, 50:146

PEPPLER, W.-- Future of erology, 54:344
____ Lapse rate in nimbus clouds, 56:371--72
____ Meteorological conditions in free air during two extreme weather types, 53:220--21
____ Vertical extent of cloud layers, 49:347--48
____'s "Influence of foehn wind on average temperature in Alpine foreland", 54:506
____'s paper on characteristic features of air currents on coasts, 57:343
PERNTER, Prof. Joseph M.-- Damage by hail in site of cannonading, 29:117
____ Methods of forecasting weather, 31:576--62
____ Present status of knowledge of causes of diurnal changes in temperature, pressure, and wind, 42:655--66
____'s meteorological optics, Wood on, 23:357--59
____'s theory of rainbow, [il], 33:61
PERRET, Frank A.-- Visibility of sound waves, 48:162--63
PERROTIN, H.-- Nocturnal cooling of lower layers of atmosphere, 48:38
____ Propagation of heat in lower layers of atmosphere, 48:39
PERSONS', John D., letter on stranding of "Acadian", 42:233
PETERMANN's Geographische Mitteilungen, meteorology in, 33:321--22
PETERSON, S.P.-- Brilliant meteor and its cloud-like trail, [il], 61:200
____ Flood protection in Wichita, Kan., 53:133--34
____ Ice storm in Illinois, 41:221
____ Tornado frequency in Kansas, 50:253--54
PETITJEAN, M.L.-- Application of frontal theory to cyclones in Sahara, 52:496
PETTERSSON, Dr. Hans-- Congress of Scandinavian Geophysicists in Gothenburg, Aug. 28-31, 1918, 47:90
____ Meteorological aspects of oceanography, 44:338--41
____ Some new instruments for oceanographical research, [il], 45:159--64, 236
____ Synoptic study of hydrographical phenomena, 47:100-05
PETTERSSON, Prof. V.I.-- Comparison of hydrological and meteorological data, 54:464
PETTERSSON, W.J.-- Past cold winter and possibility of long range weather forecasting, 57:256--57
PEUGEOT, Leon-- Snow slides and slips, [il] 40:927--28
PEYRIGUEY, Jacques-- Influence of snow on development of vegetation in Spring, 48:222
____ Two waterspouts observed at Rabat, Morocco, on Dec. 18, 1917, 47:727
PHILIPPE, Judge John F.-- Legal decision as to cyclones, 35:260--64
PHILLIPS, Dr. Frank M.-- Determining atmospheric conditions of comfort, 52:104--05
____ Short method of obtaining Pearson coefficient of correlation and other short statistical..., 50:135--36
PHILLIPS, Prof. H.A.-- Effect of climatic conditions on fruit trees, 51:360
PHILLIPS, Dr. W.F.R.-- Atmospheric temperatures during July, 23:253--55
____ Clothing and temperature, 25:200--01
____ Meteorology and public health, 23:171
____ Sunstroke in California and Arizona, 24:454--56
____ Sunstroke weather of Aug. 1896, 24:409--13
PHIPSON, Dr. T.L.-- Electric spark produced when ice is formed, 35:217
PICARD, L.-- Lunar total eclipse, July 4, 1917, 45:575
PICHE evaporometer, [il], 33:253--55

PICK's, W.H., "Short Course in Elementary Meteorology", review of, 61:330

PICKERING's, Prof. Edward C., meteorological activities, Ward on, 47:241--42

PICKERING, Prof. William H.-- Effects of hurricanes on upper-air currents, 43:496--97; 46:509--10

_____ Harvard station in Jamaica, 47:573--74

_____ Meteorology of moon, [il], 44:70--74

_____ Relation of prolonged tropical droughts to sun spots, 48:589--92

_____ Relation of telescopic definition to cold waves, 48:511

_____ Why axes of planet are inclined, 45:532--33

PIERCE, Daniel T., jr.-- Benjamin Thompson-- Count Rumford, [il], 31:317

_____ Ice storm of Dec. 16-17, 1932, near Highlands, N.Car., 61:45

_____ Temperature variations along forested slope in Bent Creek Experimental Forest, N.C., 62:8-12

PIERCE, Dr. W. Dwight-- New interpretation of relationships of temperature and humidity..., 47:494--95

_____ 's contributions on meteorological effects on life, bibliography of, 52:106

PIIPPO, Arthur F.-- Analysis of Madison, Wis., aerological data with application..., 56:47--53

_____ Cloud height according to direction of motion, 57:154

_____ Rare halo of abnormal radius, 50:534

_____ Seventeen-year record of sun and sky radiation at Madison, Wis., April 1911-March 1928, 56:499--504

PINCHOT's, Gifford, letter on relation between forests and rainfall, 30:232--33

PINCKNEY, Reuben M., and E. BURKE-- Montana rainfall, 48:285--87

PINDELL, L.M.-- Regimen of Chattanooga watershed, 24:420

PITMAN, George W.-- Small tornadoes near Cheyenne, Wyo., [il], 51:314

PITTIER, H.-- Climatology of Costa Rica, 29:21--22, 64--65, 116-17, 162-63, 208, 254, 305, 352-53, 405, 542--54, 498-99, 594-95

PLUMANDON, Prof. J.R.-- Cannon and hail, 30:604--07

_____ General report on hail shooting presented to congress at Lyons, 30:35--38

POCKELS, Prof. F.-- Theory of formation of precipitation on mountain slopes, 29:152--59, 206--07

POLETIKA, Prof. W. von- Agro-climatic conditions in Russia, 57:251

POLIS, Dr. P.-- New Public Weather Service of Germany, 35:364--66

_____ Wireless telegraphy in service of modern meteorology, 36:407--08

POND, Dr. Raymond G.-- Influence of light and darkness upon growth and development, 31:180--84

POPOF's, Prof. A., memoir on use of kites in meteorology, 36:98

PORTER, Alred W.-- Green flash at sunset, 43:283

PORTER, H.N.-- Conservation of water in lower Trinity river, [il], 32:1241--42

POSEY, Prof. C.J.-- Minnesota's earthquake of Sept. 3, 1917, 45:556--58

POUND's, Robert T., letter on visible weather, 46:166--67

POWELL, Lyman B.-- Tree rings and wheat yields in southern Saskatchewan, 60:220--21

POYNTING, Prof. J.H.-- Radiation in solar system, 32:508--11

PRIESTLEY, R.E., and C.S. WRIGHT-- Glaciology, 51:316--17

PROBERT, John T.-- Equinoctial storms, 28:558

PROCTOR, Frank W.-- Cold weather dust whirl, 33:154

- _____ Growth of fog in unsaturated air, 25:22–27
 - _____ Horizontal atmospheric rolls, 24:367–68
 - _____ New theory of fog formation, 32:406–11
 - _____ Standing clouds among North Carolina mountains, 33:438
 - _____ Study of summer fogs of Buzzards Bay, 31:467–72
 - _____ Vertical air currents, 34:78
 - _____ Wind nomenclature, 25:54–55
- PROHASKA, Karl– Dipping of freezing-point plane before thunderstorms, 14:360–61
- PROSSER, William A.– “Guns” of Lake Seneca, N.Y., 31:336
- PROUSE, Ervin J.– Correlation-periodogram investigation of rainfall..., 63:245–48
- PURSSELL, U.G.– Floods in Minnesota river, 36:207
- _____, Tornado at Northfield, Minn., May 3, 1922, [il], 52:261
