

Subject Index - N

- National Advisory Committee for Aeronautics, establishment of, 43:500--01
_____, metric system adopted by, 44:627
- National Conservation Commission, establishment of, 36:178
- National Electric Light Association, meeting of, Feb. 18, 1921, weather forecasting at, Beals on, 49:210--13
- Natural gas companies, value of weather forecasts to, 35:228
- NC-4, flight of, recruiting, meteorological aspects of, Anderson on, 48:529--32
- Nebulizer, McClure on, 49:294
- Nederlandsch Tijdschrift voor Meteorologie, publication of, 28:160, 252
- Nepheloscope, Espy's, 35:123
- Nephoscope, Besson on, 32:13--14
_____, Marvin on, 24:9--13 [il]
_____, use of, to measure vertical component of movement of clouds, 31:22--24, 30
- Netherlands Meteorological Institute, history of, 33:545
- Neve, aqueous exchange between, and atmosphere, Billwiller on, 45:601--02
- New England Meteorological Society, 36th meeting of, 24:13
- New Mexico, forests of, western yellow-pine, meteorological study of, Perason on, [il], 41:1615--29
- New York Botanical Garden, evaporating power of air at, 36:63--64
- New York City, Weather Bureau office in, removal of, 26:455
- New York State Barge Canal, opening of, Spencer on, 59:158
- New York State Water Supply Commission, fifth annual report of, 1910, 38:332--33
- Newspapers, exaggeration of, 27:155
- Newtonian constant of gravitation, effects of temperature on, Shaw on, 44:515--16
- Nicolas Central Physical Observatory, St. Petersburg, meeting of, Sept. 14-20, 1903, 31:138
- Nitrates, conversion of, into nitrites, by sunlight, Moore on, 45:602--03
- Nitrites, conversion of nitrates into, by sunlight, Moore on, 45:602--03
- Nitrogen, presence of, in rain, 32:566
_____, presence of, in rain, Ithaca, N.Y., Wilson on, 49:405
_____, presence of, in rain and snow, Peck on, 46:211
_____, presence of, in rain and snow, Trieschmann on, 47:807
- Nitrogen acids, amount of, in Australian rainfall and atmosphere, weather influence on, Masson on, 45:501
- Noises, atmospheric, 43:314--15
_____, explosive, Franklinville, N.Y., 25:393
_____, meteoric, 31:476; 33:490--91
_____, oceanic, 26:152--54, 216, 562
_____, oceanic, Terada on, 43:315
_____, seismic, 25:393; 26:152--54, 216, 562
_____, seismic, North Carolina and Georgia, 25:393--94
- Noon, Greenwich, 26:67--68
- Normal, definition of, 46:514--15
_____, Marvin on, 51:383--90
_____, meteorological, computing, method of, Clough on, 51:391--95

_____, meteorological, constructing, 31:380
North Sea, water level of, relation between, and trade winds, 43:341
'Norther', Sept. 24-27, 1892, Vera Cruz, Mexico, 20:252
_____, March 1898, California, 26:93
_____, April 12-13, 1898, California, 26:93
_____, California, dry, 23:212
_____, California, peculiarities of, 32:25
_____, California, Sacramento Valley of, Blair on, 37:132--3
_____, Caribbean Sea and Gulf of Mexico, 26:568
_____, dry, California, 23:212
_____, dry, comparison of, with wet, Tannehill on, 57:136--42
_____, dry, Nevada, 23:173
_____, Gulf of Mexico and Caribbean Sea, 26:568
_____, Gulf of Tehautepec, Hurd on, 57:192--94
_____, Mexico, east coast of, effects and forecasts of, Grogan on, 47:469--71
_____, Nevada, dry, 23:173
_____, Panama Canal Zone, 45:546--49
_____, Sacramento Valley, Blair on, 37:132--33
_____, Tampico, Mex., 21:363--64; 48:468
_____, Vera Cruz, 21:226--27, 363--64
_____, wet, comparison on, with dry, Tannehill on, 57:136--42
'Northwester', Canterbury, Meeson on, 23:383
_____, origin of, Roy and Chatterji on, 57:428
Norway, contributions of, to natural sciences, 33:539--40
Norwegian Meteorological Institute, yearbook of, 1927, 57:24
